Projects

Resume Website

Sep 2024 - Jan 2025

Tech Stack: HTML, CSS, JavaScript

Link: ensues.github.io/

- Developed a personal resume site to showcase all of my qualifications and projects.
- Designed a fully responsive following basic web design standards.

University Registrar Booking Site

Oct 2024 - Dec 2024

Tech Stack: HTML, CSS, JavaScript, PHP, MySQL, Bootstrap, Laravel

Link: <http://tsu-registrar-online-booking.kesug.com>

- Created a web-based appointment booking system for Tarlac State University's Registrar Office to streamline scheduling processes and reduce wait times.
- Utilized Bootstrap and Laravel to create a dynamic calendar that checks availability of time slots in real time
- Managed the database using MySQL on our hosting platform, InfinityFree.
- Designed the project as part of a case study to address inefficiencies in manual booking processes, ensuring improved interaction between students and administrative staff.

Auto File Management

Sep 2024 - Oct 2024

Tech Stack: Python

Link: github.com/Ensues/Auto-File-Management

- Implemented a script that automatically organizes files into predefined directories based on file type, enhancing workflow efficiency and file management.
- Leveraged the os library for file and directory manipulation and the shutil library for moving files to declutter folders
